Fun Game for Your Next Girls Nite Out!

Looking for something different to do during your next get-together with your girlfriends? I have a great game for you to try, it's called, "What's a Dame to Do?". I absolutely love this game. The concept is unique and fun, Games for Dames is the brainchild of Karri and Patty of Sisters 2, Inc..

Here's an excerpt on the game concept which I borrowed from the [Games for Dames](#) website:

So, you're in the middle of one of life's little "Dame Dilemmas," What's a DAME to do?! The answer is in the cards! Each player gets a turn being in the spotlight. Who can guess you best? Bonus points are awarded for showing your hilarious side ~ so get your funny on!

OBJECT

Score the most points by correctly guessing players' reactions to "Dame dilemmas." (And laugh a lot while you're at it!)

This game is a riot and you know what they say, "Laughter is the best medicine". Get ready to laugh your ass off with this one. Plus if you have a great dilemma, you can actually submit it to Sisters 2, Inc via the Games for Dames website and they just might add it to the game.

On a final note, they are searching for the next face on their box - you could possibly be a winner. Visit [Games for Dames](http://www.gamesfordames.com) and submit your information for a chance to be the next model on their game box.
